

## The Foundation for Science and Technology – Event List

<b>Title</b>	<b>Date</b>
BIS Innovation and Research Strategy for Growth	1 February, 2011
Knowledge into action; development in the Arctic Region [Round-table discussion]	14 December, 2011
Stimulating economic growth by increasing the contribution from research, innovation and the Higher Education sector	23 November, 2011
The impact of the development of shale and tight gas reservoirs on global energy supply	9 November, 2011
Science advice in a crisis [Round-table discussion]	1 November, 2011
Lifting barriers for career paths for women in Science, Technology, Engineering and Mathematics (STEM) [Round-table discussion and evening debate]	27 October, 2011
Developing adaptation policy and action for the UK in response to climate change	19 October, 2011
UK National Ecosystem Assessment	13 July, 2011
Public procurement as a tool to stimulate innovation – the House of Lords Science and Technology Select Committee Report	22 June, 2011
Can better use be made of public data for example in health research?	8 June, 2011
The Japanese earthquake, tsunami and nuclear accident - implications for the UK	18 May, 2011
The future strategy for the management of mental health in the UK	4 May, 2011
Is there a viable future for biofuels in the UK?	6 April, 2011
Can the further education system deliver the skilled people the economy needs?	2 March, 2011
Can cities move to a sustainable economy without a public sector stimulus?	10 February, 2011
The allocation of science and research funding 2011/12 to 2014/15	2 February, 2011
The Wonder of the Web	8 December, 2010
Changing behaviour - can a cultural shift be achieved in how people use energy?	24 November, 2010
Building stronger European research partnerships	17 November, 2010
Science advice and the management of risk in government and business	10 November, 2010
Digital Scotland - can Scotland grasp the opportunities created by the digital revolution?	28 October, 2010
Can we trust government statistics?	20 October, 2010
Peak Water - can the developing world find the water needed for food production and a growing population?	14 July, 2010
The Scientific Century: securing our future prosperity	16 June, 2010
What next after Copenhagen?	02 June, 2010
The Hauser Review of the UK Science and Innovation System	18 May, 2010
Is the science education system supplying the skills that the UK wants?	28 April, 2010

## The Foundation for Science and Technology – Event List

<b>Title</b>	<b>Date</b>
The future strategy for high speed rail in the UK	17 March, 2010
Astronauts speak to the next generation	12 March, 2010
Christmas Reception – David Willetts MP	09 December, 2009
Synthetic Biology - a threat or an opportunity?	18 November, 2009
A national infrastructure for the 21st Century	11 November, 2009
The impact of climate change on Scotland	29 October, 2009
The Digital Britain Report - keeping up with the competition from other nations	14 October, 2009
Beyond the recession - what can science and innovation partnerships do for you?	07 October, 2009
Engineering: turning ideas into reality - the House of Commons Select Committee Inquiry	07 July, 2009
The Future of Higher Education in England	17 June, 2009
Financial models – key tools for risk analysis or the vector of global financial collapse?	10 June, 2009
Can city managers make better use of science?	03 June, 2009
What should be the priorities for medical research in the UK?	20 May, 2009
Can a value be put on biodiversity?	06 May, 2009
How fast can the rate of change of technology be accelerated to reduce carbon emissions from transport?	29 April, 2009
Raising skills in the UK workforce – mental capital, skills and well-being	01 April, 2009
To what extent should UK funding for science and innovation be focussed?	04 February, 2009
Lighting up the brain - a 25 year journey from basic science to commercial instrument	10 December, 2008
Assessing risk – are our lives unnecessarily regulated to reduce risk?	26 November, 2008
The Wakeham Review of the health of physics in the UK	19 November, 2008
The contribution of technological innovation to meeting energy reduction targets	05 November, 2008
The future role of universities in Scotland (Round-Table Discussion)	03 November, 2008
Statistical advice and the process of policy development and drafting of legislation	29 October, 2008
Food security - the global balance of supply and demand for food	15 October, 2008
Growing the Scottish economy; what role does innovation in products and services have to play?	24 September, 2008
What will be the legacy of the 2012 London Olympics?	09 July, 2008
Woodland management policy; should UK woodlands be managed for amenity value or commercial production? (Round-Table Discussion)	04 July, 2008
Is it feasible to define a sustainable transport policy?	25 June, 2008
Living with Environmental Change - a new multi-Research Council, multi-Departmental and multi-Agency environmental research	18 June, 2008

## The Foundation for Science and Technology – Event List

<b>Title</b>	<b>Date</b>
programme	
Improving the energy efficiency of the existing building stock	04 June, 2008
How does science and technology support the defence of the UK and what are the wider implications for the wider economy?	21 May, 2008
Innovation Nation – a new strategy for innovation	07 May, 2008
Improving the teaching of mathematics and reading skills in primary education	23 April, 2008
Can carbon trading contribute to meeting carbon emission targets?	02 April, 2008
The role and strategy of the Technology Strategy Board	19 March, 2008
The holding and use of DNA profiles on police data systems	06 February, 2008
The Lord Lloyd of Kilgerran Award Lecture - The lessons learned from New Orleans - could a similar event happen in London?	11 December, 2007
Standing on the shoulders of science - Sir David King valedictory lecture	27 November, 2007
Investigating the Oceans - how should UK marine science be organised?	20 November, 2007
The Race to the Top: a review of government's science and innovation policies (The Sainsbury Review)	14 November, 2007
Transport policy - is the UK transport system for freight nearing the limit of its capacity?	06 November, 2007
What should be the development policy for the remote regions of Scotland?	31 October, 2007
Adapting to and mitigating the impacts of climate change: the engineering challenge	16 October, 2007
Changes to the machinery of government: the creation of the Department for Business, Enterprise and Regulatory Reform (DBERR) and the Department for Innovation, Universities and Skills (DIUS)	10 July, 2007
The Energy White Paper	20 June, 2007
How should the government support innovation in the economy?	05 June, 2007
Can biofuels offer a significant contribution to low carbon energy supply?	23 May, 2007
Risk, responsibility, regulation: whose risk is it anyway?	09 May, 2007
Stark choices for development policy - what should the balance be between building institutions, direct aid or capacity building?	21 March, 2007
Can the career path for young researchers be improved?	07 February, 2007
The Cooksey Review - a review of UK health research funding	17 January, 2007
Christmas Reception	05 December, 2006
Lord Lloyd of Kilgerran Award Lecture	05 December, 2006
Scientific advice, risk and evidence based policy making	15 November, 2006
Stern Review on the economics of climate change	08 November, 2006
Science Education - are we losing the plot?	02 November, 2006
What are universities for?	25 October, 2006

## The Foundation for Science and Technology – Event List

<b>Title</b>	<b>Date</b>
The Innovation Challenge	14 September, 2006
Sustainable Development - how should policy and business decisions reflect pressures on natural resources and global climate?	18 July, 2006
Pensions Policy - What are the liabilities for government and business and how should they be managed?	11 July, 2006
How is technology changing the nature of broadcasting?	21 June, 2006
Water Management in the UK	06 June, 2006
Looking into the future - can we anticipate technological change?	24 May, 2006
Merging diverse datasets can produce new insights. What new applications are possible and are there new privacy and regulatory issues?	09 May, 2006
How should the government support innovation in the economy?	25 April, 2006
UK Energy Policy - what are the economically attractive supply options and what percentage should each option supply?	08 March, 2006
The work of the House of Lords Select Committee on Science and Technology	07 December, 2005
Climate Change - technology for mitigation and adaptation	22 November, 2005
Drugs, alcohol and health	17 November, 2005
British and Norwegian Oil and Gas Industry Collaboration Conference	26 October, 2005
Carbon Abatement Technology	25 October, 2005
Lord Lloyd of Kilgerran Award 2005 Lecture	19 October, 2005
The Science and Innovation Framework 2004-2014 Workshop	11 October, 2005
Strengthening international R&D partnerships - is there a case for increased US/UK collaboration?	12 July, 2005
What is the future for nuclear power in the UK?	09 July, 2005
Is the UK well prepared for an influenza epidemic?	22 June, 2005
The future prospects for the biotechnology industry in the UK	08 June, 2005
The Education of 14-19 Year Olds	25 May, 2005
Science Policy and Management	11 May, 2005
Can the UK get on, and stay on, a path to a sustainable economy?	27 April, 2005
The UK Productivity Gap	23 March, 2005
Transport Policy - How should road congestion be managed?	09 March, 2005
Identity Management	23 February, 2005
Visit to Ford Dagenham Diesel Centre	01 February, 2005
Science and The City	01 December, 2004
Strategic Subjects in Higher Education	23 November, 2004
Science Communication - are we making progress?	10 November, 2004
Energy Policy - Security of Supply	28 October, 2004
Lord Lloyd of Kilgerran Award 2004 Lecture	26 October, 2004
Public Health - imposing choice?	20 October, 2004

## The Foundation for Science and Technology – Event List

<b>Title</b>	<b>Date</b>
Risk Perception and Public Policy	12 October, 2004
Science & innovation investment framework 2004-2014	20 July, 2004
Partnership in research in Europe	13 July, 2004
The future of science publication - open access or library serials?	23 June, 2004
How can science support the Home Office in reducing and detecting crime, improving security, controlling immigration and managing the prison service?	26 May, 2004
North-South Capacity Building - How can the developed nations support the developing world to build science capacity?	12 May, 2004
What is the countryside for - food production or amenity value?	28 April, 2004
Training Teachers - Have we got it right?	24 March, 2004
Is a fundamental review of university funding required?	25 February, 2004
Richard Lambert Review and the DTI Innovation Review	02 December, 2003
Energy Policy: The Renewables Targets	25 November, 2003
Opportunities and threats from nanotechnology	18 November, 2003
Does manufacturing have a future in the UK?	11 November, 2003
Addenbrooke's NHS Trust Visit	06 November, 2003
The GM Debate - The Outcome of the Public Dialogue	28 October, 2003
Scotland and the Common Fisheries Policy	23 October, 2003
Lord Lloyd of Kilgerran Award Lecture	07 October, 2003
The Review of Research Assessment and the Sustainability of University Research Consultation	16 July, 2003
The Sustainability of University Research: the Dual Support System	09 July, 2003
Urban Congestion Management	18 June, 2003
Adding Value to Research & Development	10 June, 2003
Horizon Scanning	03 June, 2003
Redesigning the science curriculum; what does society want?	20 May, 2003
Creativity, Science, Engineering and Technology	14 May, 2003
Building stronger partnerships in medical science research in the UK	30 April, 2003
The threat to the UK from biological and chemical terrorism: what can be done and what is the risk?	08 April, 2003
UK and the Arctic	25 February, 2003
The Funding of UK Universities - Increased Fees or Grant-In-Aid?	04 February, 2003
Women in Science, Technology and Engineering	29 January, 2003
Christmas Reception	10 December, 2002
A UK success story – technology transfer from Formula One and motor rally to commercial car production	03 December, 2002
How is the Internet changing business and government?	27 November, 2002
How should technical skills training be supported?	19 November, 2002
Lessons Learned from the 2001 Foot and Mouth Outbreak	05 November, 2002

## The Foundation for Science and Technology – Event List

<b>Title</b>	<b>Date</b>
THE NINTH ANNUAL ZUCKERMAN LECTURE	31 October, 2002
The Science of Climate Change: Adapt, Mitigate or Ignore?	
A Science Strategy for Scotland	24 October, 2002
Sir Gareth Roberts' Review, SET for Success	22 October, 2002
The Lord Lloyd of Kilgerran Award Lecture	02 October, 2002
UK Energy Policy	25 July, 2002
Priorities for Research and Innovation in the UK	16 July, 2002
Beyond Moore's Law	09 July, 2002
Science, Engineering and Technology	25 June, 2002
Science, Technology and Sustainability	22 May, 2002
Pathological Specimens and Data - What controls should be in place?	23 April, 2002
Crossing discipline boundaries - integration of the UK science, arts and humanities base	26 March, 2002
How should governments support innovation and science in a growing economy?	19 March, 2002
How should radioactive waste be managed?	12 March, 2002
Encouraging Innovation and Economic Growth - Does the Patent System deliver?	27 February, 2002
Science Communication - How well are we doing?	05 February, 2002
Christmas Reception	12 December, 2001
Can Technology Transform the Justice System?	11 December, 2001
The Strategy for Science in Europe: The Integration of Accession Countries	28 November, 2001
The Decline in Global Fish Stocks	13 November, 2001
Europe as a Global Player: The Contribution of Education and Research	01 November, 2001
Does Scotland have the skills to support a knowledge economy?	23 October, 2001
Using Space Science for the Public Good	17 October, 2001
The Lord Lloyd of Kilgerran Prize Lecture	03 October, 2001
Managing Uncertainty and Corporate Governance	02 August, 2001
The Role of the Chief Scientific Adviser	26 June, 2001
BSE and vCJD- The Current Understanding of the Science	05 June, 2001
Genetic Databases - Threat or Opportunity	30 May, 2001
Salt and Diet - Too Much or Too Little?	24 April, 2001
The BSE Inquiry - Implementing the Lessons Learned	03 April, 2001
Research Portfolios: Choosing Programmes and Priorities	14 March, 2001
The Excellence and Opportunity White Paper	27 February, 2001
Challenging Technology for Sport and Leisure	14 February, 2001
Climate Change - Mitigation and Adaptation	31 January, 2001
Future Science Priorities	13 December, 2000

## **The Foundation for Science and Technology – Event List**

<b>Title</b>	<b>Date</b>
Food Safety - Who is responsible government or industry?	12 December, 2000
Educating young people to think about innovation and design	29 November, 2000
How can transport integration be achieved - by sticks or carrots?	14 November, 2000
Stem Cell Therapy: promise or threat?	31 October, 2000
Energy policy - the impact of technical innovation	25 October, 2000
Innovation, research and development - the future of design and engineering	17 October, 2000
Foresight: is it working?	18 July, 2000
Science and Society	28 June, 2000
The Seventh Zuckerman Lecture	06 June, 2000
The Environment & The Air Travel Industry	31 May, 2000
The Data Deluge	09 May, 2000
Technology & Crime - Can Science & Society Meet?	11 April, 2000
Genes: What Next in Sequence?	29 March, 2000
Science education - is there a Crisis?	08 March, 2000
Science, Society and Xenotransplantation	22 February, 2000
Is the UK Missing a multi-billion pound environmental industry?	08 February, 2000
Can a European space policy be self sufficient, and is one necessary?	25 January, 2000
Routes of Excellence in Higher Education	14 December, 1999
