

Best in Scotland for student experience for six consecutive years since 2010

**Forensic Science and beyond**  
Professor Sue Black

## The Medici Effect

Innovation at the intersection of multidisciplinary research space: new enlightenment for forensic science

Transforming lives

[www.dundee.ac.uk](http://www.dundee.ac.uk)

## Forensic sciences

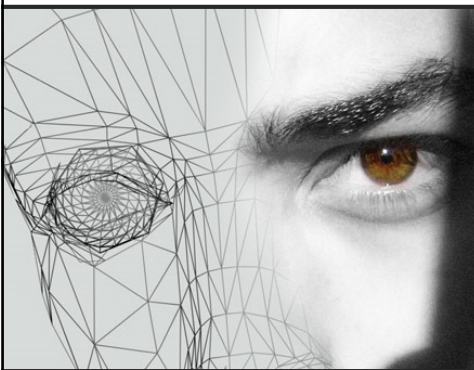

- Forensic science covers a broad range of science areas, with overarching themes crossing ranges of disciplines
- Translational in nature, responding to new technologies & developments

Transforming lives

[www.dundee.ac.uk](http://www.dundee.ac.uk)

## Innovation in forensic science

Ground reconnaissance mapping methods used for facial analysis

Smart food spoilage sensors driving advances in time since death analysis

Transforming lives

[www.dundee.ac.uk](http://www.dundee.ac.uk)

## Encouraging collaboration

The translational nature of forensic science can draw upon the entirety of the science community and engage in new ways with industry to work within markets that are not familiar for their mainstream products.

Transforming lives
