

The background of the slide is a close-up, high-angle photograph of a green printed circuit board (PCB) populated with numerous integrated circuits (chips). The image is overlaid with a semi-transparent green filter, creating a monochromatic aesthetic. The text is centered and rendered in a clean, white, sans-serif font.

UK Semiconductor Policy Discussion

JB Advisory

UK Semiconductor Focus considerations

- UK Strengths: R&D, Design, IP and specialist manufacturing
- Funding : Seeding start-ups/spin-outs & but also helping to fund scale-ups
- Leverage other UK thrusts in Net Zero, electrification, digital economy, AI, supercomputing, space/satellites, Quantum, Telecom for additional funding and market access
- Creating Focal points: Policy, Institute/Centre, eco-system (training, IP law, tax,..), UK lead conferences
- To thrive long term, must remain globally connected: Markets, talents, technology, Institutional funding
